HEAVY FIRE LOSSES AT MT. VERNON

THREE BIG STORES BURNED OUT
BY BLAZE EARLY SUNDAY
MORNING

Fire of unknown origin early Sunday morning came near sweeping the little city of Mt. Vernon, county seat of Rockcastle county, off the map, and caused one of the heaviest losses sustained in that section for many years. The losers, with their losses and insurance as gained from the best obtainable authority are as follows:

U. G. Baker, two general stores, \$29,000 loss, with \$10,500 insurance.
P. Krueger & Sons, general store, \$18,000 loss, with \$12,000 insurance.
C. W. Davis, store, \$3,600 loss, with \$1,500 insurance.

Casper Williams, loss on dwelling about \$100.
The agencies of Fish & Pennington, and R. M. Newland, of Stanford, and Edgar Albright, of Mt. Vernon, had the principal insurance on the burned property. Mr. R. M. Newland went up to Mt. Vernon on Sunday to see after the matter and he says that the theory that the store of Krueger & Sons was first robbed and then burned to conceal the crime, is not held by many. Mr. Krueger built the new Lincoln county courthouse, and is said to have put out none too well on that contract, so that this additional loss will fall particularly hard on him.

But for the fact that the blaze was stopped at the home of Mr. Williams, it is believed that it would have destroyed the whole city. Mt. Vernon has no water works and the fire fighting facilities are of rather a primitive sort.

You'll notice that the name of Fish & Pennington generally appears as having protected the losers in a fire, with their insurance. It's because we represent only the best of companies and our patrons know their property is fully protected in our hands. Let us call before the fire department.

Young Burglars Caught

TWO SMALL NEGRO BOYS NABBED WITH GOODS ON

Wakefield Armstrong, aged seven years and Jesse Love, aged 14 two colored boys, were arrested Saturday morning by Marshal H. D. Carter, charged with burglarizing the home of Mr. Walker and stealing an umbrella and other things. They are said to have slipped in the front door while the family were at breakfast and to have tried to carry off everything that was not nailed down.

Summary justice was meted out to Love who was sent to reform school at Lexington to serve 6 years, while the little fellow, who is a son of Charles Armstrong was let off with a good whipping, which was administered by his father. He was given fifty lashes in the presence of the court and promised to be good in the future.

Some Fishing.

FORMER KENTUCKY EDITOR
CATCHES GIANT TARPON IN
SOUTH

(Harrodsburg Republican.)
In the window of the Blue Front may be seen the ninety-eight-pound Silver King tarpon, caught by editor Lewis B. Brown in the bay near St. Petersburg, Florida. Mr. Brown, besides being an editor, is an earnest disciple of Isaac Walton never missing an opportunity of running down the funny tribe.

The monster fish fought for an hour and thirty-two minutes before he was finally subdued, and was jumped as high as ten feet in the air, opening and closing its mouth in an effort to dislodge the hook. Mr. Brown, in a little skiff, was carried more than a mile and a half down the bay, his boat rocking all the while and his guide importuning him to cut the line and let the fish go.

In capturing the fish he used a reel and six-foot pole and for bait a "minnow" weighing nearly a pound. That part of the line next the hook had a steel leader nearly six feet long and fitted with swivels, which prevented the fish cutting the line or twisting it in twine.

When the fish was at length pulled into the boat, Mr. Brown was almost exhausted from the continued struggle, but happy that he had landed his first tarpon. The catch when measured was found to be five feet from tip to tip.

For catching the fish Mr. Brown received a button from the St. Petersburg Tarpon Club.
When the stomach fails to perform its functions, the bowels become deranged, the liver and the kidneys congested causing numerous diseases. The stomach and liver must be restored to a healthy condition and Chamberlain's Stomach and Liver Tablets can be depended upon to do it. Easy to take and most effective. Sold by G. L. Penny.

Dr. J. G. Carpenter will speak to the teachers of Lincoln county in the Graded school building Thursday morning at 11 o'clock on prevention of tuberculosis.

SMALL BLAZE.

About noon today a heavy house of J. S. Hucker, on Somerset street was discovered to be on fire and the alarm was turned on. The fire department responded promptly but the flames before it arrived. A passing traction engine caused the blaze which did very little damage.

Carl Etherington, a Kentucky boy from Washington county, who was acting as detective for the drays at Newark, O., in an effort to close up blind tigers, accidentally shot and killed William Howard keeper of a suspected tiger, and Howard's friends became so enraged they stormed the jail and lynched Etherington. Gov. Harmon has suspended the Mayor of Newark for not protecting Etherington, and similar action will be taken against the sheriff of the county.

Believed Boy Drowned.

EXCITEMENT IN MIDDLEBURG BE
FORE LAD WAS FOUND

Middleburg, July 11.
Mrs. Fannie Hubble and her two daughters Misses Cordia and Beatie spent last week with the family of A. H. Royalty at Yosemite.

Mrs. Sallie Hanford wife of William Hanford died here Sunday morning and was buried at Walnut.

Monday, Mrs. Hanford leaves a husband, three daughters and two sons, to mourn the loss of a kind wife and mother.

There was considerable excitement for a few moments at Yosemite one day last week, when it was thought that Herbert Polson, the little son of Ben Polson was drowned. The little boy was fishing in the creek a short distance from the house, when all at once he was missing from his place on the bank of the stream. Miss Polly Polson his aunt went to look for him and finding his fishing tackle on the bank concluded that he had tumbled in, she raised the alarm and it being mail time quite a number of people were in town and all rushed to the scene to find the father of the child in five foot water searching for the body of his boy. People were expressing their sympathy and the excitement was high when the little boy was discovered standing in the crowd wondering what the excitement was about. He had seen the hack come into town and had left off fishing and came to the post-office for the mail as he was accustomed to do.

Quince Jones has the Arizona fever and his temperature has been running quite high for some weeks. He will likely make a trip to that country in the early fall and if pleased will buy a farm and move to it. Mr. Jones talks like he means business but it is going to be mighty hard for him to leave.

Buggy Turned Over

WHEN MRS. THOMPSON'S HORSE
SCARED AT AUTOMOBILE

Preachersville, July 11.
An automobile scared a horse driven by Mrs. J. J. Thompson and the buggy was turned over, throwing Mrs. Thompson out, but luckily she was not seriously hurt.

Pado Parks continues on the sick list. Mrs. J. H. Riggsby came over Sunday to visit the homefolks. She has been at the Crab Orchard Sanitarium and is reported as much better. Little Oliver Moses Stout, the founding, has been sick. Your correspondent is having trouble with his throat.

Mr. and Mrs. Wm. Sprinkles, of Rowland, visited Logan Thompson and wife.

We understand the board of education has considered it proper to defer the erection of a new school building here for two years more.

A few months since the board promptly condemned the old makeshift building here as unsafe and unsanitary and as the board wisely considered it thus, it seemed that a new school building was a certainty in the immediate future. But not now.

Mr. citizen in the interest of your children, in the interest of your neighbors children get after the proper authorities. Our community should wake up and shake itself and take cognizance of a fire issue.

Rev. Pierce Bryant preached Sunday at the Baptist church to a large crowd.

While handling a shotgun in a careless manner, Frank Perkins colored, shot his foot nearly off.

Logan Thompson sold 60 bags to Victor Lear at \$100, also three cows and calves to Robert Thompson, of Crab Orchard, for \$150.

JUDGE BELL'S WILL.
The holograph (self written) will of Judge W. Con Bell was offered for probate in the county court Monday. James Taylor Wilson was named as executor and also guardian of W. Con Bell, Jr., who is to be converted into cash as soon as practicable, and the income, rents and issues are to be divided one-fourth to Mrs. T. C. Bell, and if his widow should marry or die, it all goes to his son, W. Con Bell Jr., and should he die without issue, to Paul Bell and Mrs. Nantie Bell Harrison. Should all die without leaving heirs the estate goes to the Mercer county Fiscal court, to be used in purchasing a heating plant for the county infirmary. The will was dated April 6th, 1910.

PRICE OF TOBACCO WILL GO DOWN

UNLESS POOL IS SUCCESS, SAYS
WILSON TO LINCOLN COUNTY
GROWERS

Proclaiming to tobacco growers of Lincoln county, and other counties south of the river that unless they come in with their brothers and helped in the fight against the common enemy, the tobacco trusts to maintain living prices for the weed, the entire pool would fail and the price drop again, Bradley Wilson fired the first gun here Monday in the fight to establish the pool on substantial footing in Lincoln county. He told the tobacco men of Lincoln that they have been milking their brothers' cow through the fence, riding on the wave of high prices and getting the benefit while the members of the pool did the work. The time has come now, when unless the growers in this section pool, the fight to keep up high prices is going to be lost.

Mr. Wilson made a clear and convincing argument, and at the conclusion of his address invited the meeting to elect three representative delegates to attend the meeting of the Burley Tobacco Society in Lexington Tuesday and report back their honest opinion to the home growers. The meeting selected C. E. Tate, J. C. Eubanks and Sam Bryant and they will probably report back next court day, though an earlier meeting may be held.

Mr. Wilson made no effort to get any man to sign the pooling pledge at this time. He said as simply wanted the growers to know what it was he was advocating and wanted them to investigate.

The report which these three delegates will make back will undoubtedly carry much weight. They are among the most representative farmers and tobacco growers of the county. There is a rapidly growing sentiment in Lincoln in favor of pooling this year's crop. There is scarcely anyone, however, even who does not pool, but who admits the success of previous pools has been responsible for the high prices received for tobacco, and wants to see it succeed again.

Fought Over "Hand"

AND WHEN THEY FINISHED HE
WAS MISSING.

"Hands" are hard to obtain in tobacco, corn and wheat fields in Lincoln county just now, and when a strapping colored man appeared on the farm of M. S. Baughman and applied for work, two tenants on the place, both of whom are raising nice patches, Mitchell and Rice jumped for him, and as they could not amicably agree as to who should secure his services, they resorted to a stern argument and were soon in a rough and tumble tussle, while the "hand" looked on.

The question of physical superiority settled, one arose to claim the man when lo, and behold, he had completely disappeared. Friends of the men say that the "hand" undoubtedly feared to hire to such strenuous taskmasters, and "lit out" while possession of him was being disputed.

Good Citizenship.

ABLY DISCUSSED LAST WEEK
BY EVANGELIST DANIEL

Good citizenship was the subject of a lecture by Rev. J. C. Daniel, the Evangelist of the Christian church last Wednesday night. The feature discussed were: The functions of the State, The functions of the citizens, and things which make for good citizenship. The speaker declared the State did not create or give rights but only protected a man in the exercise of the rights which were already his. Any man has the right to do right and the State has no power to grant a man right to do wrong. The State is guilty of a crime when it protects a man in doing that which is inherently wrong. Each voter is guilty who gives his ballot to protect an evil institution.

Each youth at twenty-one is armed to fight for his country. His weapon is suffrage.

A good body, a good mind, public spirit, a clean social life and high moral standards included observance of Sunday, enforcement of law, elimination of gambling and the abstinence of the liquor traffic. A large crowd heard him and frequently punctuated his remarks with applause.

Firecracker Exploded

CAME NEAR PUTTING SMALL
BOY'S EYES OUT

William Reinhardt, the young son of Mr. and Mrs. E. L. Reinhardt, was badly burned in the face while playing with fireworks last week. He was leaning over a firecracker which was thought to have exploded, when it went off in his face, badly burning him, and injuring his eyes so seriously that for a time it was feared that his sight was impaired.

The eye brows and lashes were singed off and his flesh painfully burned. For several days he was compelled to lie in bed with a bandage over his eyes, but improvement is being shown now, and it is believed that he will suffer no permanent effects from the close call.

VERY NARROW ESCAPE

Hustonsville, July 11.

Leslie the 10-year-old son of Mr. and Mrs. S. D. Yowell had a narrow escape from serious if not fatal injury last week. While riding his spotted pony three large work mules of Mr. John Allen's surrounded Leslie and his little pony and caused the pony to run, throwing his rider, his foot hanging in the stirrup. He was dragged about one hundred yards before released. Our city council will see to it that loose horses or mules will not run loose on our streets in the future.

OF HOW HERMAN BELL WAS
KILLED AT KINGS MOUNTAIN

Herman Bell was killed by a freight train No. 56 North bound Sunday morning at 6:30. Herman was 18 years old, a son of Frank Bell, living near Kings Mountain. He was working in the machine shops at Ludlow and was on his way to work. His brother was sitting on the platform at the depot when the train came by and Herman tried to catch the engine and missed his aim and got caught under the wheels and was instantly killed his head being almost severed from his body. His brother pulled him from under the engine but not until after he was killed. He was fine boy and well liked by all who knew him.

Mrs. Lizette Wright, of Ohio, visited relatives here.

Mr. Manford Chivolette and wife of Ludlow, are visiting homefolks here.

Mr. Arthur Murphy who has been in the West and south-west for three years is at home.

Born to the wife of Joe Record a boy.

The C. & O. are having some ditching done North of Kings Mountain.

Our colored brethren don't tarry long at Kings Mountain. The railroad Company had a Negro watching an engine here and after a charivari party the other night the boys went to the engine and told him he had better find lodging elsewhere and he did so in a hurry.

Edward Murphy is able to be out after a severe attack of pneumonia.

A SPLENDID STORY.

You are missing something good if you are not reading "The Island of Regeneration" which began in last Friday's I. J. It was awarded the Interior Journal as a prize in the newspaper competition at Press Association meeting at Middlesboro by the Western Newspaper Union. It is one of the most interesting volumes of fiction out and is worth reading. Installments will appear at least once each week, sometimes in both issues a week—according to space—until completed.

CARD OF THANKS.

We desire through the columns of the Interior Journal to thank the many who were so untiring in their efforts to assuage the grief occasioned by the untimely death of our son and brother, John Williams and family Stanford.

FIGHT PICTURES CAN'T SHOW HERE

CITY COUNCIL PASSES ORDINANCE
PROHIBITING THEIR
EXHIBITION

Not to be outdone by any of the authorities of other cities, many of the mayors of which are taking matters into their own hands to stop exhibitions of the moving pictures of the Jeffries-Johnson prize fight, the City Council of Stanford at its meeting last week, went all of the mayors one better and passed an ordinance prohibiting the exhibition of the pictures in Stanford. This action of the Council was taken presumably upon the opinion of Mayor Gaynor of New York, that mayors have no power to prohibit the exhibition of the pictures in the absence of laws covering the subject. The Stanford City Council does not intend to leave any loophole here, so passed an ordinance, making a city law on the subject. The ordinance will be found printed in full in another column of the Interior Journal.

Ed Walton's Letter

CONTINUATION OF HIS BREEZY
NOTES FROM ATLANTA

One of Atlanta's solidest citizens is an old Lancaster boy, Dr. W. S. Elkin, who has not only made fame but fortune here. He stands at the head of the M. D.'s of the state and is admired by all who have the pleasure of his acquaintance. The doctor married a sister of Mrs. R. C. Warren, of Stanford, and has many friends in good old Lincoln county. Dr. Elkin only a few weeks ago sold his beautiful Peachtree street home for \$103,000. He owns one of the largest sanitariums in Atlanta and no physician here has a larger or better practice.

The "Gate City of the South" is soon to have another immense theater. She already has a half dozen or so playhouses and dozens of moving picture shows and still they come. A deal has been pending since the late theatrical war and Atlanta is yet to have her biggest and best Temple of Thespis.

On April 23rd, last, four negroes murdered and robbed a street car motorman and it was at first thought fatally wounded the conductor. The conductor got well and last week testified at the trial of his assailants. The negroes were tried separately and a verdict of death was given each. It is not thought they will have a new trial and the chances are that the quartet will hang from the same gallows ere many moons shall wax and wane.

A reading room for street car employees is something new under the sun but Atlanta has it all right. Splendidly equipped quarters are at their disposal and the best of books and periodicals are at their demand. No city of anything like its size can boast a better car system than Atlanta's and it is but just that men who do such satisfactory work have some comfortable place where they can spend their idle moments with pleasure and profit alike.

The governor's race is on in earnest. There are three candidates now: Present incumbent Brown, Hoke Smith, former governor and secretary of the interior in Grover Cleveland's first cabinet, and Attorney General Hart. The primary will be held Aug. 23rd and a hot time is expected from now till then. Smith and Brown are not at all friendly but on, or the other will knock the persimmon. Hart, who claims to be the emissary of peace, hasn't a show on his life to win.

I was sorry to see the Lexington Herald do the baby act, but was not greatly surprised. It is not its first bolt and I don't suppose its attitude in the congressional race is causing either alarm or loss of sleep. I was for Thomas in the race and was never an admirer of Mr. Cantrill, but he is so far ahead of any republican who will go against him there should be no question as to how a white man should vote.

Tell everybody howdy for me and bid each and all of them God speed.

E. C. Walton.

Broke His Arm

GATEWOOD BEAZLEY SUFFERS
PAINFUL ACCIDENT

Gatewood, the young son of Mr. and Mrs. J. L. Beasley, broke both bones in the "ore part" of his left arm Monday afternoon by falling off his horse. He had ridden the animal to water, and was preparing to slide off when he lost his balance and went off the wrong side, head first, landing full force on his head. Part of the jagged edge of one of the bones stuck in the flesh and the physician was compelled to give him an anesthetic before setting the member.

LIKES ARIZONA

Arthur Murphy brother of Mr. M. G. Murphy, of Kings Mountain, is back home from Phoenix, Ariz., where he has been for some time. He says that the Salt River Valley of Ariz. is one of the finest countries on the map but that it is largely the domain of the big rich and Mexican laborers.
